PROFESSIONAL SUMMARY

Backend Software Engineer specializing in .NET with a strong focus on API development. Experienced in designing and maintaining scalable RESTful and GraphQL APIs, implementing caching and performance optimizations, and building secure, production-ready backend services. Comfortable working in Agile, distributed teams and delivering maintainable, high-quality systems.

TECHNICAL SKILLS

- **Languages & Frameworks:** C#, Java, PHP (Laravel), JavaScript, TypeScript, Python, Corda (blockchain)
- **Databases:** PostgreSQL, MySQL, Redis, TimescaleDB (timeseries)
- **Tools & Platforms:** GitLab, Github, Azure
- **Testing & QA:** NUunit, SoapUI, Postman, Swagger
- **CI/CD & Monitoring:** SonarQube, Sentry, Veracode, Splunk, Uptrends
- **Other Skills:** Webscraping, RegEX, Photoshop

PROFESSIONAL EXPERIENCE

Software Engineer (.NET Developer) *Part-time freelance*

WISE Group Systems, Stavanger Norway

April 2025 – Present

- Develop and maintain scalable RESTful and GraphQL APIs using .NET for multiple business applications.
- Apply multi-layer caching and optimization techniques to enhance API performance and reduce server load.
- Implement secure API practices, including authentication, authorization, and safe data exchange with clients.
- Integrate backend services with frontend applications and third-party systems for seamless functionality.
- Collaborate with remote teams to plan, design, and deliver backend features on schedule.
- Monitor, troubleshoot, and resolve API and system issues to ensure high availability and reliability.
- Maintain thorough API documentation and technical guides for internal and external stakeholders.
- Support continuous improvement by recommending and implementing best practices in backend development.

Software Engineer (.NET Developer)

NCAS Inc. Novaliches, Quezon City

July 2022 – January 2025

- Designed, developed, and maintained full-stack web applications using ASP.NET MVC, .NET Core, C#, and Entity Framework.
- Built robust and reusable backend services and APIs supporting multiple business modules and integrations.
- Optimized database queries and implemented performance improvements to reduce response times.
- Collaborated with cross-functional teams on system architecture design, code reviews, and feature planning.
- Implemented security best practices including role-based access control, input validation, and data protection.
- Supported production deployments, including version upgrades, hotfixes, and rollback procedures.
- Investigated and resolved production issues and bugs to maintain system reliability.
- Participated in unit testing, integration testing, and automated test case creation for software quality.
- Documented APIs, system workflows, and technical specifications for internal reference and maintenance.
- Mentored junior developers and guided them on coding standards, design patterns, and best practices.

Data Analyst (Web Scraper)

Innodata, Mandaue Cebu

July 2021 – June 2022

- Extracted structured data using XPath, Regular Expressions, and Sequentum.
- Ensured data accuracy, consistency, and compliance with project requirements.
- Delivered extracted data to analysts to generate statistical reports.

Software Engineer *(Java/ Kotlin)*

McVean Pacific Int'l Offshoring Inc. Angeles, Pampanga

May 2020 – June 2021

- Developed and maintained blockchain-based applications and smart contracts.
- Collaborated with cross-functional teams to enhance decentralized application features.

EDUCATION

Holy Angel University

B.S. Information Technology (Major in Web Development)

2015 –2020

Greatways Technical Institute

Computer Programming (NC - IV)

2012 –2014

ACADEMIC ACHIEVEMENTS

Certificate of Participation

TORO Cloud

February 2019

*Recognition for participating in the TORO INTER-SCHOOL IT ELITE CHALLENGE 2019 Championship Round
Frontend Category*

National Certificate IV

Computer Programming (NC - IV)

June 2012

Technical Education and Skills Development (TESDA)
